Please see below and attached. It looks like this was probably sent to a number of state and federal contacts. The specific question in the email is directed at DOH.

Larisa W. Romanowski  
Public Affairs Specialist  
U.S. Environmental Protection Agency  
Region 2 Hudson River Field Office  
187 Wolf Road, Suite 303  
Albany, NY 12205  
(518) 407-0400

Please Forgive Our Antipathy....

PFOA's weaken the immune system.

The blood levels of the people of Hoosick Falls is a future forecast of a much bigger health catastrophic potential consequence!

Question for DOH:

Is it safe to give immunizations to children or elderly with weakened immune systems?? If so what does that mean, now because of your neglect of the poisoning of our community; we now have to decide this??
